Assignment/Test Submission Receipt

Instructions:

1. Please save this receipt to your computer. It is the only proof of the submission you just made. In case of a dispute, your instructor will not honor your claim unless you email this receipt. Paper copy is not useful. It is also a file backup in case the file server collapses
2. Don't make any change to the receipt because any single-letter change will result in a complete failure in the receipt authentication process and your instructor will not honor edited receipt.
